375	U.S. DEPARTMENT OF HOMELAND SECURITY	Federal Emergency Management Agency (FEMA)	Flood Mitigation Assistance (FMA) Program	ENVI	Technical	Helps States and communities plan and carry out activities designed to reduce the risk of flood damage to structures covered under contracts for flood insurance. Planning grants are available to prepare Flood Mitigation Plans. Only communities participating in the National Flood Insurance Program (NFIP) with approved Flood Mitigation Plans can apply for Flood Mitigation Assistance (FMA) Project grants to implement measures to reduce flood losses, such as elevation, acquisition or relocation of NFIP-insured structures. States are encouraged to prioritize FMA funds for applications that include repetitive loss properties; these include structures with two (2) or more losses each with a claim of at least \$1,000 within any 10-year period since 1978. Technical Assistance Grants for the State to help administer the FMA program and activities. Up to 10 percent of project grants may be awarded to States for FMA Technical Assistance Grants.	National program	The State or community must first develop (and have approved by FEMA) a Flood Mitigation Plan that describes the activities to be carried out with assistance provided under this program. The plan must be consistent with a comprehensive strategy for mitigation activities and be adopted by the State or community following a public hearing. Eligible projects include acquisition, elevation or relocation of structures insured under the National Flood Insurance Program (NFIP), especially those that have been repetitively flooded or substantially damaged. 377	U.S. DEPARTMENT OF HOMELAND SECURITY	Federal Emergency Management Agency (FEMA)	National Flood Insurance Program	HOUS	Capital	Enables individuals to purchase insurance against losses from physical damage to or loss of buildings and/or contents therein caused by floods, mudflow or flood-related erosion, and to promote wise floodplain management practices in the nation's flood-prone areas. In order for a community to participate in the NFIP, the community must agree to adopt and enforce floodplain management ordinances, particularly with respect to new construction since this an important element in making flood insurance available to home and business owners. These measures take a variety of forms and generally include requirements for zoning, subdivisions or buildings and special-purpose floodplain ordinances. Currently over 20,100 communities voluntarily adopt and enforce local floodplain management ordinances that provide flood loss reduction building standards for new and existing development.	States and communities located within identified floodplains.
