

Sylvan is coming to Harrisonville Community Center!

Sylvan satellite locations are a great way for today's "on the go" families to take advantage of Sylvan programs with more convenience than ever before.

Our new satellite at your school can offer your child a great opportunity for success in school and beyond!

At Sylvan, students get:

- a personal learning plan taught by Sylvan teachers using the iPad® as a teaching tool, for a more engaging and interactive learning experience.
- lessons that adapt to your child's individual skill level and pace, so learning is challenging and fun, yet never frustrating.
- instant feedback and recognition for every student.
- mySylvan™ – your personal Sylvan website with up-to-date progress tracking and educational activities and resources.

How it works

1. Call Sylvan Learning to set up a consultation.
2. Bring your child in for a skills assessment at the Sylvan Learning center.
3. Meet with our expert staff about your child's personal learning plan.
4. Start instruction at the Sylvan satellite location.
